

## Previous (VAYISHLACH) TTriddles:

### [1] FPTL: under all the heavens

TACHAT KOL HASHAMAYIM = 400+8+400 (808) + 20+30 (50) + 5+300+40+10+ 40 (395) = 1253.

### [2] Sh'kalim, Rimonim, maidens, ISH true prophets, false prophets of what?

In Vayishlach, Eisav is approaching Yaakov with 400 ISH, a force of 400 men. ARBA MEI-OT. Other 400s (that are not part of a larger number, such as 400 and 30 years, 53,400...) include the 400 sh'kalim that Avraham paid to Efron for the Machpeila cave and environs, the 400 decorative pomegranates in the Beit HaMikdash, 400 true prophets that King Yehoshafat gathered, and the 400 false prophets of the Asheira (who ate at Izevel's table) that Eliyahu confronted on Har Karmel, in addition to the 450 false prophets of Baal.

### [3] EISH, EISH, and LEAH besides whom?

We find VATETZEI EISH... and fire went out... (twice), once VATEITZEI LEAH - in addition to VATEITZEI DINA.

### [4] Footer Icons

The first footer icon (reading from left to right) usually represents something towards the beginning of the sedra. Last week it was a FINAL-MEM, referring to the 8-word pasuk enumerating the numbers and types of animals in part of Yaakov's appeag gifts to Eisav. The second footer is the insignia of a

general in the Israeli Air Force. The rank of ALUF, a word that occurs 32 times in the end of Vayishlach - and nowhere else in the Torah.
