

Three Kugel Shabbat - There is a custom that some people have, to make (and eat) a kugel for each Torah we read from on any given Shabbat. Besides Shabbat Chanuka which is also Rosh Chodesh, Shabbat Sh'kalim and Shabbat HaChodesh can each fall on Rosh Chodesh (but not in the same year).

Speaking of reading from 3 Torahs: Simchat Torah, every year. But if we are talking Shabbat, then never in Chutz LaAretz but in Israel, 28.5% of the time.

So far, Simchat Torah and Chanuka (27.9%). Two more 3-Torah Shabbatot. Sh'kalim 11.5%; HaChodesh 28.0%

Remember - 14 year-types. 3 of them (18.2%) have no 3-Torah Shabbat. 8 year-types (67.5%) have one. 3 year-types (14.2%) have two each.
